CAREER OBJECTIVE

Dedicated Computer Science Engineering student with a strong passion for frontend and full-stack web development. Proficient in React.js, modern JavaScript, Tailwind CSS, Java, and Python. Seeking opportunities to contribute to innovative software solutions and grow as a software engineer.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

K L University, Hyderabad, Telangana | 2023 - 2027

TECHNICAL SKILLS

Languages:

JavaScript (ES6+), Java, Python, HTML5, CSS3

Web & Frameworks:

React.js, Tailwind CSS, Vite, React Router

Tools & Platforms:

Git, GitHub, VS Code, npm, ESLint

PROJECTS

Recipe Finder Application | React, Vite, Tailwind CSS

- Designed and developed a responsive web application to search and discover recipes.
- Implemented dynamic search filtering, state management, and intuitive user interface components.

Lost and Found Portal | HTML, CSS, JavaScript

- Created a digital campus portal enabling students to report, search, and claim lost belongings.
- Built responsive forms with client-side data validation and categorized listings.

Animal Conservation Website | Web Development

- Developed an educational and awareness website highlighting endangered wildlife and conservation.
- Engineered multi-device responsive layouts using clean CSS and interactive UI sections.

Digital Library System | Java

- Implemented an object-oriented Java system for cataloging books and managing issue/return operations.

CERTIFICATIONS & ACTIVITIES

- Frontend Development & React.js Training
- Java Programming & Object-Oriented Principles
- Python Programming for Problem Solving
